BLUEVIEW™ FISH TAPE

DIGITAL LENGTH INDICATOR

BlueView™ technology brings modern convenience to the IDEAL® Fish Tape line that has been trusted for decades. With on-board electronics, the BlueView™ Fish Tape provides a real-time digital length display to track the amount of tape being fed from and retracting into the case.

Features:

- Tested in real environments:
 - Exposure to lubricants, dirt/debris, metal shavings and temperature extremes
 - Drop and durability performance
 - Proven accuracy through continued use
- BlueView™ is accurate to 1 ft. over the length of the fish tape and is programmed to round up eliminating wires cut short
- Great for measuring wire needed for new runs, determining locations of hangups and troubleshooting
- Simple calibration procedure to ensure accuracy
- Live reading of tape length out of the case while feeding and retracting
- Runs on AAA batteries with up to 40 hours of continuous use
- Auto sleep and shut down modes help conserve battery life
- On-board storage for replacement batteries

BlueView™ Display

High visibility on-board digital length indicator

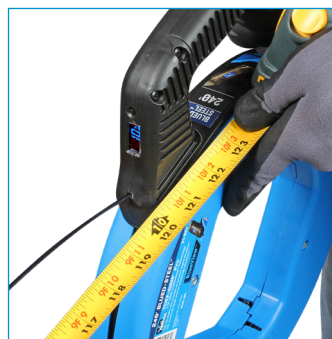

Materials

Blued-Steel™ and S-Class® Fiberglass options available

Field Calibration

Press zero button
Measure 10 ft. of tape
Press calibration button

Batteries

Two AAA batteries with storage for replacements

Fish Tape Type	Length (ft.)	Part No.
