

# RF Lighting Control

COMPATIBLE WITH

INTUITY

## TRANSFORM THE SPACE AROUND YOU.

The radiant® RF Lighting Control System offers simple control, a variety of device types, customizable scenes and the convenience of Android and iOS apps, so control is always in hand.

Easily install with existing electrical wiring and pair the devices to the system with a quick button press. Add wireless control with the LC7001 Whole House Lighting Controller (Hub), conveniently adjust lighting levels, and setup unique scenes by time or the sun's rising and setting, all from the Legrand Lighting Control iOS and Android apps.

Tru-Universal dimmers work with all load types (LEDs, incandescent, halogen and more) to eliminate flicker or incompatibility.

### DEVICES OF the radiant® collection

Part of the radiant® collection of Legrand, the RF Lighting System provides a consistent finish across all devices and system components in the collection.

### FEATURES

- A variety of switches, dimmers, and scene controllers to fit any installation needs
- With patented Tru-Universal technology, a single dimmer or plug-in module can be used with all lighting and load types, including LEDs, incandescent, halogen and more
- Installs easily on existing electrical wiring
- Plug-in modules for add-on lamps and appliances
- Wireless control via iOS and Android apps for Apple Watch, tablets & smartphones

### BENEFITS

Rest assured you'll arrive home to a well lit home, from the porch to the hallway

Set the perfect lighting level for any purpose, early morning breakfast, movie night, or during vacation — all with just one button

Ensure the right level of lighting to keep your family safe in and around the house, even at night

Save energy and money by scheduling lights to on/off when you want them to
