

# Rigmaster™ LED Series Luminaires

Standard or with Emergency Battery Backup

Hazardous Locations

NEC/CEC: Class I, Division 2, Groups A, B, C, D | Class II, Division 1, Groups E, F, G | Class II, Division 2, Groups F, G | Class III | Class I, Zone 2, Group IIC | Class II, Zone 20 and 21, Group IIIC | Type 3R, 4, 4X | IP66 | IK10 | Simultaneous Exposure | Suitable for Use in Wet Locations | Marine Outside Type (Salt Water) Ⓛ

Notable: American Bureau of Shipping (ABS) Certified | International Dark Sky (IDA) Approved | 10G Vibration

## Applications

- For use in locations where:
  - Flammable gases and dusts may be present
  - A high degree of corrosion resistance is required
  - Protection against dirt, water and moisture is necessary
- Typical industries include:
  - Drilling rigs
  - Oil refineries
  - Petrochemical facilities
  - Waste and sewer treatment
  - Underground tunnels
  - Analyzer houses
  - Cooling towers
  - Grain elevators
  - Coal and metal manufacturing
  - Flour and feed mills
  - Hydrogen and Biofuels plants
  - LNG (Liquid Natural Gas) plants

RM\*2 with Small Swivel Bracket

RM\*4 with Large Swivel Bracket

## Features

- All Models:
  - Lightweight design makes mounting and installation easy.
  - Low fixture profile allows installation in compact spaces.
  - Two sizes and output options deliver up to 7600 lumens.

Nominal Lumens Ⓛ	Fluorescent Equivalent	Replacement Lamp Type	Model
4300	2 x 32W	T8	RM*2
7600	3 x 32W	T8	RM*4

- Precision engineered clear polycarbonate lens offers wide light distribution for greater area coverage.
- Choice of color temperature (CCT): 5000K cool white, 4000K neutral white or 3000K warm white with minimum 80 CRI.
- Field replaceable lens and LED driver.
- Diverse mounting bracket options allow for mounting in any location and retrofitting third party fixtures.
- For ease of retrofitting, mounting brackets accommodate most bolt patterns for Crouse-Hinds™ ±, Dialight™\* and other manufacturers. See *Mounting Brackets*.
- Wirenuts and screw terminal block ③ option for added flexibility.
- Hinged wire compartment cover is secured with captive screws for safety and convenience.
- Loop in/out wiring capability for inter connecting fixtures
- Standard screw-type terminal block can accept UL/CSA 22-12 AWG wire.
- 5 casted points for secondary safety retention.
- Heavy duty, high temperature silicone gaskets.
- Standard 6 kV/3 kA surge protection.
- Fixture position locking mechanism provides ease and consistency of aiming.
- Rugged housing with superior thermal design translates to long luminaire life.

### — Reported L70:

+25 °C (+77 °F)	Reported	> 60000
	Calculated	> 200000
+65 °C (+149 °F)	Reported	> 60000
	Calculated	> 200000

— Photometric data and electronic drawings available upon request.

- Standard Model:
  - Ambient Temperature: -40 °C to +65 °C (-40 °F to +149 °F).
- Emergency Battery Backup Model:
  - Emergency version is suitable for heights up to 14 feet.
  - Ambient Temperature: -20 °C to +55 °C (-4 °F to +131 °F).
  - Suitable for heights up to 4.27 m (14 ft).
  - Field replaceable battery pack and battery management module (BMM)

## Warranty Ⓛ

- 10 year standard warranty.

## Options

- All Models:
  - Yoke brackets can be factory installed or purchased separately.
  - Pendant mount kits ④ can be purchased separately.
  - Safety cable can be purchased separately or configured as an add on option to be shipped with the LED fixture.
  - Available with 3/4" or 1/2" NPT threaded hubs.
  - Clear or diffused polycarbonate lens.
  - Wirenuts or screw terminal blocks ③ available.
  - For custom paint colors, contact your Appleton Sales Representative. Minimum quantity applies.
- Emergency Battery Backup Model:
  - 90 or 180 minutes of emergency battery back up available.

Ⓛ Marine Outside Type (Salt Water) is applicable to standard (non emergency) fixtures only.

Ⓛ Nominal lumen value for 5000K, clear Lens. Detailed lumen information is provided in the "Lumen Output (Efficacy)" tables.

③ Terminal block option available for BU voltage configuration only.

④ Pendant mount kit option is not available with Type 3R, 4, 4X, IP66, and Marine Outside Type (Salt Water) ratings.

## Illustrated Features — All Models

### Flexibility and Modular Design

**Hinged wirebox cover with captive screws:** Allows hassle free installation in challenging conditions and prevents accidental disengagement to enhance workplace safety.

**Light where you need it:** Notched position locking mechanism enables fixture to be aimed consistently.

**Facilitates plug n play installation and decreases installation time:** Two NPT hubs on each end for through wiring. Leads are placed outside the wiring compartment allowing installer to bypass the screw cover.

Choose from **three color temperatures** (CCT): 3000K, 4000K, and 5000K.

**Standard linear light distribution pattern:** wide distribution maximizes spread and work plane brightness to optimize number of luminaires needed.

### Configurable Options

**Yoke Mounting Brackets ③④:** Ability to mount using one of three distinctly designed brackets to best suit your installation needs. All brackets can be factory installed to save time in the field or purchased separately.

**Pendant Mounting Kits ④⑤:** The pendant mount kits consist of Appleton GRF Outlet Box with a built in union cover as well as the necessary mounting and wiring accessories. For ease of installation and added flexibility, it is field installable and purchased separately.

**Clear or Diffused Polycarbonate Lens:** Select a clear or diffused polycarbonate lens for the optimal level of work plane brightness and visual comfort. These lenses are field interchangeable for convenience and flexibility.

**Wirenuts or Screw Terminal Blocks ①②:** For ease of field installation, choose between wirenuts and screw terminal blocks ④ for 120-277 Vac configured models. Terminal blocks support UL/CSA 22 to 12 AWG wire.

### Safety Features

**Retention Points:** Five points for secondary retention provide protection against in-field vibration.

**Safety cables ③:** Can be purchased separately or included with fixture to reduce ordering and receiving complexity.

① Applicable to standard (non emergency) fixtures only.

② Terminal block option is available for standard unit, BU voltage configuration only.

③ Brackets and safety cables can be ordered separately or included with fixture. See Ordering Table for more information.

④ Mounting Brackets compatible with standard and emergency versions are not the same. Please refer to mounting bracket details for more information.

⑤ Pendant mount kit option is not available with Type 3R, 4, 4X, IP66, and Marine Outside Type (Salt Water) ratings.

## Automatic Testing System (ATS) — Emergency Battery Backup Model — Functionality ②

Functional	Full Duration
Starts within 24 to 45 hours after the initial powerup of the module	Starts within 5 to 26 days after the initial power of the module
Occurs every 14 days after the initial aforementioned functional test	Occurs every 364 days after the initial aforementioned functional test
Lasts for 30 seconds	Lasts for the full duration of the rated emergency period

At the completion of functional and full duration tests, LED indicator will display the status of the emergency luminaire when AC is present

### LED Signals

Indicator Color	Timing	Description
Green	1 sec ON: 1 sec OFF	Normal charging ok, Battery not yet fully charged, No fault detected, Testing ok
Green	0.25 sec ON: 0.25 sec OFF	Functional / Duration Self-Test on-going
Green	Steady ON	Charging ok, Battery fully charged, No fault detected, Testing ok
Red	1 sec ON: 1 sec OFF	Fault condition. Installation issue. Battery is reverse, not connected or shorted. Functional test failure, full duration test failure
LED Indicators OFF, LED Array ON	LED Indicator Lights (Red and Green) OFF	No AC, Emergency mode ON

① Marine Outside Type (Salt Water) is applicable to standard (non emergency) fixtures only.

② Applicable only for Emergency model.
