CARBON MONOXIDE ALARM

CO5120BNA

120V AC, 60Hz Wire-in with battery backup

ELECTROCHEMICAL CO SENSOR

Most accurate technology available for detecting carbon monoxide as compared to other sensing technologies.

INTELLIGENT SENSING TECHNOLOGY

Microprocessor controlled to reduce the number of nuisance alarms.

LATCHING ALARM INDICATOR

Remembers which unit initiated an alarm.

TWO LOCKING FEATURES

Pins are provided to lock battery drawer and/or alarm to base. Perfect for apartment, dormitory or hotel applications.

LOUD 85DB ALARM

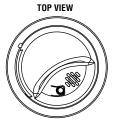

The BRK Brands, Inc. model CO5120BNA is a wire-in, 120 VAC 60Hz single and / or multiple station carbon monoxide alarm specifically designed for residential and institutional applications including sleeping rooms of hospitals, hotels, motels, dormitories and other multi-family dwellings as defined in standard NFPA 101. Model CO5120BNA complies with CAN/ULC S531. They meet building codes where AC/DC carbon monoxide alarms are required either separately or in combination. The alarms are interconnectable up to 18 devices. of which 12 can be smoke alarms.

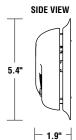

The BRK CO5120BNA features an electrochemical carbon monoxide sensor, an 85dB horn, 9V battery back-up and a silence feature. "Intelligent Sensing Technology" is designed to reduce nuisance alarms. "Latching Alarm Indicator" remembers which unit initiated an alarm. When interconnected in a series, the unit that triggered the alarm will store in memory or "latch" the information and begin to flash the LED indicator 2 seconds on, 2 seconds off. A single button test/silence button eliminates confusion. Battery installation and removal can occur while the unit is mounted to the ceiling or wall via the side load battery compartment. Other Contractor Preferred features include a dust cover to keep alarm clean during construction, keyhole slots in the mounting bracket eliminate the need to remove the electrical box screws for installation. Two locking features are provided to prevent battery theft and/or theft of the unit. Connection to AC power is made with a "Quick-Connect" wiring harness. Installation is quick, easy and cost effective.

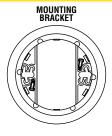

^{CAT.}CO5120BNA

ARCHITECTURAL AND ENGINEERING SPEC

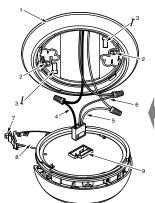

The carbon monoxide alarm shall be a BRK model CO5120BNA and shall provide at a minimum the following features and functions:

- 1. An electrochemical CO sensor.
- 2. Powered by 120V AC, 60Hz and have a monitored 9V battery backup and a solid state piezo horn rated at 85dB at 10 ft. and shall be capable of self restoring.
- 3. The unit shall perform self diagnostic tests and issue a malfunction warning audibly (three chirps) if the unit malfunctions.
- 4. A visual LED power-on indicator to confirm unit is receiving power or to confirm unit has switched to battery backup mode.
- 5. The CO sensor is adjusted not to detect CO levels below 30 PPM and will not alarm when exposed to constant levels of 30 PPM for 30 days. It will alarm at the following levels: 400 PPM CO between 4 and 15 minutes, 150 PPM CO between 10 and 50 minutes and 70 PPM CO between 60 and 240 minutes.
- 6. A test/silence button to check all alarm functions and to silence any nuisance alarms. In addition, the unit shall have a low battery silence feature to quiet the low battery chirp for up to eight hours.
- 7. A "Smart Interconnect" feature allows the unit to be interconnected to BRK smoke alarms. During a smoke event, the CO5120BN horn pattern shall emit the smoke alarm horn pattern (3 beeps, pause, 3 beeps pause). During a CO event, the interconnected CO alarms sound their normal horn pattern.
- 8. The unit shall be capable of operating between 40°F (4°C) and 100°F (38°C) and relative humidity between 10% and 95%.
- 9. The unit shall at a minimum meet the requirements of CAN/ULC S531.

INSTALLATION OF ALARM

Installation of this carbon monoxide alarm must conform to all local electrical codes and Article 760 of the National Electrical Code (NFPA 70) and NFPA 720. Interconnected units must meet 678 the following requirements: Total length of wire interconnecting units should be less than 1000 feet. It is recommended that all units be on the same fuse or circuit breaker. If local codes do not permit, be sure the neutral wire is common to both phases.

THE PARTS OF THIS CO ALARM

- Mounting bracket
- Mounting Slots
- Locking Pins
- Hot (Black) AC Wire
- Nuetral (White) AC Wire
- Interconnect (Orange) Wire
- Battery Drawer Latch
- Battery Drawer Install 9V battery here
- Quick-Connect Plug
 - A. Unswitched 120VAC 60 Hz source B. To additional units: Maximum = 18 tota (Maximum 12 Smoke Alarms) Junction Box
 - CO Alarm Ceiling or Wall

 - Power Connector Wire Nut
- Neutral Wire (White)
 - 8. Hot Wire (Black)
- Interconnect Wire (Órange)

TECHNICAL SPECS

Alarm Dimensions:	5.4" dia x 1.9"H	
Weight:	6.4 oz	
Operating Voltage:	120V AC 60Hz w/ 9V battery backup	
Operating Current:	.09 amps (standby/alarm)	
Temperature Range:	40°F (4°C) to 100°F (38°C)	
Humidity Range:	10% to 95% relative humidity (RH)	
Audio Alarm:	85dB at 10 feet	
Test/Silence:	Electronically simulates carbon monoxide condition, causing the unit to alarm Press and hold test/silence button	
Alarm Reset:	Automatic when CO clears	
Interconnections:	Up to 18 units of First Alert or BRK Smoke, CO and Heat Alarms. Maximum of 12 smoke alarms. See user's manual for details.	
CO Sensor:	Electrochemical	
Indicator Lights/Sound	S:	

AC Power: Constant Green LED DC Power: Intermittent Green LED Local Alarm: Red LED flashes rapidly

Remote Alarm: Red LED out.

Red LED flashes every 5 seconds after local alarm stops Latching Alarm:

Listing: Listed to CAN/ULC S531.
