

WARMING GEAR

Flame-resistant and built for cold jobsite conditions.

FLAME-RESISTANT BEANIE

FRBN9

- Flame-resistant and built for cold jobsite conditions
- Helps retain warmth during winter work
- High-visibility design
- Flexible fit under hard hats or on its own
- One size fits most

FLAME-RESISTANT BALACLAVA

FRBALC8

- Fire-Rated for Safety: Clearly marked as FR so workers know it meets safety standards.
- Balaclavas are Rated to ASTM F1506 standards, for Flame Resistant and Electric Arc suitable for CAT 2 environments.
- Soft and Comfortable Made with stretchy, high-quality fabric that feels good all day.
- Built to Last: Holds its shape and size after many washes — durable for tough jobs.
- Tested by Real Workers: Linemen say it's warm, protective, and fits well after breaking in.
- Fits Under Helmets: Slim design works easily with hard hats and other gear.

FLAME-RESISTANT HELMET LINER

FRSKLC7

- FR-Rated for Jobsite Safety: Meets flame-resistant standards and includes visible FR tags for easy compliance.
- Soft, Stretchy Fabric: Comfortable to wear all day with materials that flex and move with the user.
- Durable Construction: Holds shape and size after repeated washing — built for long-term use.
- Slim Fit for Layering: Low-profile design fits easily under hard hats and helmets without bunching.
- Trusted by Field Crews: Validated by linemen during field trials for warmth, comfort, and performance in cold conditions
