RT CONDUIT MOUNT

A Self-flashing Conduit Mount Featuring Roof Tech's AlphaSeal®

Roof Tech Technical Advantages

Structural

-Fastened with wood screws directly to the roof sheathing or rafters
-No need for pilot holes or pre caulking
-No damage caused by splitting rafters, pilot holes, or decreased structural capacity when compared to the traditional lag connection once the lag is removed (re-roofed)

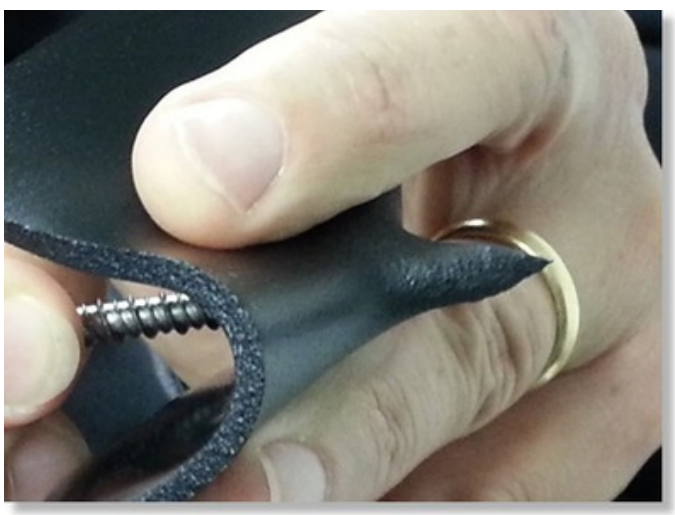

Advantages of Flexible Flashing

AlphaSeal™

-A synthetic rubber: copolymer of isobutylene with isoprene
-Impermeable to moisture
-Superior flexibility
-RT- AplhaSeal® flashing has a 25yr. warranty.
-Resilient to temps from -40ºF to 248ºF - **highest operating temperature in the industry.**
-Application amb. temp. 22ºF to 176ºF dry surface
-Resistant to mildew, acids, alkalis & salts
-ICC-ESR3575 Flexible Flashing Compliance
