- UL & NEMA Rated
- Permanent Power
- ADA Compliant Options
- NEMA Partner

Power People On the Go

Education Campuses, Corporate Workspaces, Public Spaces

Satisfy the Power Hungry

Life doesn't pause when batteries run low.

From students hustling to their next class to professionals taking calls between buildings and guests lingering in a bustling plaza, today's outdoor spaces need more than just fresh air – they need reliable power.

Outdoor Charging Stations deliver safe, permanent charging in a sleek pedestal design that enhances the space instead of cluttering it. No hunting for outlets. Just convenient power for people on the go.

Outdoor Charging Station

Charging and Illumination
Combine charging with accent or area lighting in one pedestal to maximize functionality of outdoor spaces (3000K or 4000K options).

Durable, Premium Finishes
Available in black, bronze and silver to match the aesthetics of your space.

2- or 3- Gang Options
Customize the station with two or three gangs of devices to meet your facility's unique needs.

Power Where People Gather

Food Trucks, Tree Lighting, Concerts, Parks, Maintenance, Rooftop Decks

Every great outdoor moment needs a little juice.

When the food trucks roll in, the string lights flicker on and the speakers start to hum, the Outdoor Power Pedestal brings serious amperage and all-weather durability in a discreet design that melts into its surroundings. No messy cords. No bulky distractions. Just smooth, reliable power that keeps the vibe alive.

Outdoor Power Pedestal

Highest Amperage On the Market
Accommodates 15–100A NEMA-Rated receptacles for serious outdoor performance.*

Install It Your Way
Choose surface mount or direct bury to match your layout, timeline and terrain.

See the Space, Not the Pedestal
Thoughtful color options that integrate seamlessly into any landscape.

*Pedestal is rated up to 125A with a field review.

Power Where People Party

Rooftop Decks

Power to New Heights

The best views deserve the best power.

Up on the roof, the vibe is everything– sunset cocktails, high-energy spin classes, open-air collaboration and late-night conversations under string lights.

The Outdoor Rooftop Box delivers permanent, discreet power designed specifically for raised rooftop applications, eliminating the need for extension cords and temporary fixes. Clean sightlines. No tripping hazards. Just seamless power that keeps the energy high and the space looking great.

Outdoor Rooftop Box

Only Rooftop Box on the Market
Only solution on the market designed for raised rooftop applications.

Slip-Resistant Design
Eliminates tripping hazards while maintaining a clean look.

While-In-Use Protection
Allows cables to pass through a sealed egress while the cover remains closed.

Power Where People Play

Stadiums, Sports Fields, Event Venues

Big moments demand big power.

Friday night lights. Roaring crowds. Outdoor concerts echoing across a summer sky. The moments that bring communities together rely on rugged dependable power – even when it's out of sight.

Legrand's Outdoor Ground Box keeps your outdoor space connected beneath the surface, supporting the music, the games and the memories that last a lifetime.

Outdoor Ground Box

Choose Your Power Configuration
Options include 2-gang 20A duplex, single 30A Turnlok® locking receptacles or a 2-gang low-voltage box for communication/AV with the ability to gang multiple boxes.

Easy to Use and Maintain
Built-in cable guides organize cables and line them up with the smart egress door that auto adjusts to allow for easy management of cables exiting out.

Good Looking, Long Lasting
Sits flush with the ground to seamlessly blend into existing landscaping. UV-resistant material enhances product durability.

Power The Next Great Adventure

Corporate Offices, Hotels, Higher Education Campuses, Shopping Centers

Every journey begins with a charge.

For more people than ever, that charge comes from an EV charger. Whether it's a family road trip, morning commute or weekend getaway, Legrand's Networked Level 2 EV Charger helps drivers charge up and drive on.

Each unit arrives pre-configured with AmpUp's managed charging platform, cutting installation and activation time so your site is ready for charging faster. And for drivers, starting a charge is effortless: tap an RFID card or scan the QR code with the AmpUp EV Driver App and they're back on the road in seconds.

Networked Level 2 EV Charger

Networked
Pre-installed with a 4G SIM card for cellular connectivity.

Fast Charging
48A charger allows for vehicles to be charged fast, offering an average of 46 miles of range per hour.

Access Control
Restrict access to authorized individuals with the built-in RFID card reader or the AmpUp EV Driver App.

Why Legrand Outdoor Power Solutions?

How Legrand Outdoor Solutions Support the WELL Building Standard

Legrand's Outdoor Power portfolio helps extend WELL principles by making outdoor spaces more usable, comfortable and people-centered. Our solutions encourage time spent outdoors while supporting flexible and restorative environments.

They provide safe, reliable power for lighting, technology and amenities – all key elements that align with WELL strategies for well-being.

Every Legrand outdoor product is created with one goal: to make people's lives better outside. From the first sketch to the final installation, our solutions are crafted with real-world needs in mind.

Our expanding portfolio reflects our commitment to powering outdoor life with products that integrate beautifully, last longer and elevate every outdoor experience.
