Size	3XT 36, 3XT 54, 3XT 72 - connecting end diameter 7/16" (11.1 mm)
	4XT 36, 4XT 54, 4XT 72 - connecting end diameter 5/8" (15.9 mm)

Retractable Saw Set

- Retractable Blade – 6" blade retracts into the handle with the twist of a knob. The retractable blade provides convenience and safety.
- Blade can be easily and quickly changed to allow the user to use the saw with various materials, in many different applications.
- Saw is designed to accept most 6" (or shorter) standard reciprocating saw blades, allowing for versatility and convenience.
- Ergonomically designed handle for comfort, a sure grip and to allow force to be applied both on the push and pull stroke.
- The end of the handle can be removed to allow access to a blade storage area that can hold 2 additional blades.
- The infinitely adjustable blade can be used at any length. The handle includes 3 hard stops that allow the blade to be adjusted to 2-1/4", 3-1/4" and 4-3/4" for hard sawing.
- The standard blade, or jab blade, includes a sharp point to allow the saw to be used as a standard jab saw. The split tooth design of the jab blade allows for the maximum cut with each stroke of the blade, both forward and back.
- The kit includes both a jab blade and a bi-metal blade to help meet all your sawing needs.
- Patents-Pending.

CAT. NO.	UPC NO.	DESCRIPTION
311	13110	Retractable Saw Set
311-JAB	71945	Replacement Jab Blades

SPECIFICATIONS

Length:	8.4"	213.36 mm (13"/330.2 mm blade extended)
Height:	1.7"	42.9 mm
Width:	1.1"	27.9 mm
Weight:	5.6 oz.	157.9g

CAPACITY

Jab Blade	Drywall, Ceiling Tile, Wood
Bi-Metal Blade	Conduit, Metal, PVC, Plastics
